Brave and Faithful Guardian of Our Homes and Property Rescued from 1mminent Peril. A very popular and well-known member of our police force, who has performed duty twelve years at the Union R. R. Depot, on Exchange Piace, in Providence, R. I, gives his unsolicited testimony

the Kidneys and Liver during the past six months; t times I was so severely afflicted that I was unable stand on my feet, as my feet and lower parts of my legs were very badly swollen; my urinary organs were in a dreadful condition, my blood was in a wretched state, and it had become so impoverished would be cold and numb and so white as to appear lifeless. I could not rest nights, but was so distressed all over that I could not lie still in bed, but would keep turning and rolling from one side to the other all night, so that I would feel more tired and exausted in the morning than when I went to bed. My condition became so serious that I was obliged stop work, and for thirty days I was unable to be on duty. I consulted the best doctors, and tried the amerous medicines and so-called cures, but rapidly grew worse, and was in a sad condition every way ares effected by it. Upon his representation I obined two bottles of the Remedy and commenced of it, my heart was made glad, and I assure you I continued to take the Remedy and to improve constantly from day to day. I took it with me on my trip to Maine, for I was bound to have it with me all the time, and the result is that I improved speedily all the time I was away; and ever since my arrival home, which was several weeks ago, I have een on duty every day. I feel first rate, and the

swelling of hands, feet and legs have disappeared, and the terrible backache, which used to bother me more than all the rest, troubles me no more, and I sleep splendidly nights, and surely have very excellent and forcible reasons for speaking in praise of lent and forcible reasons for speaking in praise of Hunt's Remedy, for it has made a new man of me I don't know what I should have done without Hunt's Remedy; it is the best medicine that I ever have been dedicated. Grand Lodge, I. O. O. F.

SAN JOSE, May 8th .- The Grand Lodge of Odd Fellows met in the thirty-first annual session here this afternoon. After the report of the Committee on Credentials and the appointment of committees, a number of resolutions were adopted. One was to permit subordinate Lodges, by a three-fourths vote, to provide for a widows' and orphans' fund. Another was to amend Section 2, Article VI., of the constitution of subordinate Lodges, so as to permit Lodges to elect one representa-tive to the Grand Lodge for each seventy-five members. The grand officers then submitted sements, \$4,104 64; cash on hand May twenty thousand dollars.

The Jewell Murder Trial. SAN JOSE, May 8th.—The case in chief for the prosecution in the Jewell murder case closed this forenoon. This afternoon the defense introduced their witnesses, showing that Jewell owned a pair of pincers last November. Witnesses to prove defendant's good character prior to the murder were introduced. It is expected that to-morrow Jewell will attempt to prove an alibi. Sensation in Tehama County.

RED BLUFF, May 8th .- Chas. H. Simpson, appointed by the Board of Supervisors at the February meeting to expert the books of the late county efficers, submitted his report to the Board this morning, and created much discussion in this place. He relates much discussion in this place. He relates that C. H. Greene, as County Clerk, is indebted to the county in the sum of \$265 70; as Recorder, \$331 55—in all, \$596 82. Jackson Eby, Assessor, \$25 88; P. C., Teasurer, \$32 43; M. Agner, School Superintendent, \$9 54; J. T. Matlock, District Attorney, \$5; C. F. Foster, as Sheriff. \$281 40; as delinquent tax collector, \$229 43; as license collector, \$618 50—in all, \$1,179 33. The full delicious grounts to \$1,1848 83, and is all. deficiency amounts to \$1,848 83, and is almost entirely due to errors in bookkeeping. The report was received by the Board, but what action will be taken cannot be ascertained. The officers will doubtless make the deficiency good without being pushed by law. The period covers three years. Land Troubles - Suicide-Town Election. HOLLISTER, May 8th .- In a difficulty over land matters, Albert Thompson, a stock raiser of the Gabilan, twenty miles south of

here, shot and slightly wounded a young man named J. W. Brannan. Brannan endeavored to prevent Thompson from riding over some land claimed by both parties, and was trying to beat him down from his horse with his gun, when Thompson shot. There is a great deal of trouble about land matters going on in different portions of this county, and it is feared that shooting will be resorted to before the difficulties can be settled. A young man named Charles Schmidt, a native of Baden Baden, recently from the Sandwich Islands, disappeared from Paicines, where he was working in a wood-working shop, on the 15th of April. His body has been found two miles south of Paicines. He committed suicide by hanging. It is sup-

posed he was out of his head, as no other rea-son can be given for the act. There was but little excitement at the town election. The officers elected are George W. Austin, Marshal; G. G. Johnson, Treasurer; A. L. Smith, Assessor; T. S. Hawkins and C. G. Lathrop, Councilmen.

The Election in Redwood City. REDWOOD CITY, May 8th.-Considerable nterest was taken in the municipal election held yesterday. There were three tickets in the field—Citizens', Taxpayers' and People's. It resulted in a complete victory for the Tax-payers. The following are elected: Trustee, A. Teague; Clerk, John W. Glennan; Mar-A. Teague; Clerk, John W. Glennan; Mar-shal, J. Christ; Treasurer, L. Jacobsen; Police Justice, A. C. Welch; Street Superintendent, J. S. Hughes, Beath in Jail.

NAPA, May 8th.—James Q'Rourke, a prisoner in the jail here awaiting trial for the murder of his wife in St. Helena a short time ago, died last night from a paralytic stroke. Napa Election. NAPA, May 8th .- The city election passed

off quietly yesterday, and very little interest was shown. E. Haun, E. Hottel and Thos. Derry, were elected Trustees; George Allen, Marshal, and T. F. Raney, Clerk. Murder Trial in Lake County. LAKEPORT, May 8th .- The trial of Mathews for the killing of Moore at Lower Lake, commenced here to-day. Up to last night ten

urors had been secured. Drowned in a Fit. ORLAND (Colusa county), May 8th .- Geo. S. Kline, aged 45, was yesterday found drowned in a ditch six miles west of here. He probably fell in while in a fit, being sub ct to such. He was a brother to Joseph Kline, of Dixon.

The statements made by Father Barry can be easily investigated. He expresses himself ready and determined to fight the evil, which is annually ruining hundred of young people in his parochial district. Let him be called on for his facts and an investigation be begun at once. If one half of what he says is true the opium dens of New York have already

Father Barry, honorary President, said these heathens were corrupting children and converting the neigh-borhood into a hotbed of crime and debauch ery. "They are," he continued, "destroying the daughters of respectable parents by an organized system. We will call to our aid all organized system. We will call to our aid all the power of existing authorities, and root out the evil at once. We will say nothing now of those we know must aid and abet these dens of infamy, for it might frustrate our purpose; but if the authorities fail to move, and if those whom we believe to be the DENVER those passable, and not injurious, is to be noted : it amounts to the dissimilarity between the pure article and that which upporters of these crimes do not help us, and

Finally, although not a word came from Crook himself, the Secretary came to the conclusion that something must be going on. Day after day he inquired if anything had been heard from Crook, and the report was always the same, "nothing." A week passed, and on Saturday the Secretary determined not to let the matter proceed further without setting the Department right, and he sent a dispatch reminding Crook that no crossing of troops into Mexico could take place, except in accordance with the interna-tional agreement. Sir: I have no respect either for you or the principles which you champion. I should, however, feel myself morally responsible for your life if I did not warn you of the danger which I know to be hanging over you. Beware of two Englishmen, called Lennox and Brown, who will be among the passengers of the steamship City of Paris—though they may sail under aliases. One is short, with a gingery mustache, and wears eyeglasses; the other is middle aged, pale, and remarkable for his projecting lower jaw. The lot has fallen on them, out of forty men, to assassinate you, a doom which you richly deserve, but which I will not be privy to inflicting. Incredible as it may seem, fully eight inches of hailstones—some as large as plums—fell in the lower part of the city in thirty minutes. The street car drivers unhitched their horses and sought shelter where they could. Horses insecurely hitched broke loose and went tearing through the streets, which being deserted, no one was injured. The storm lasted fully an hour. OBSERVATIONS IN FRESNO.

Interesting Letter from Immigration Commissioner I. N. Hoag. EDS. RECORD-UNION: I have spent two days very profitably in this county, in studying the irrigation and colony systems adopted so successfully here. I found the enterprising

people fully alive to the importance of my mission East, and ready to place every possible facility at my disposal for gaining a correct estimate of the county's resources. In a short letter I can give but a hurried outline of those resources. This is, as to area, the third county in the State, containing about 5,000,000 acres of territory, of which 2,000,000 have been classed as agricultural lands. This area stretches fully across the San Josquin, about opposite the Bay of Monterey on the coast. The soil varies in its composition, but is generally a light loam, mixed well with decomposed granite, espe-

cially on the east side of the valley, where my observations have been made. The soil is rich in vegetable food, and only needs water to develop its producing qualities.

The San Joaquin and Kings rivers afford S THIS IS PROBABLY THE LAST SEASON an abundance of water to irrigate the whole valley portion of the county, and, I believe, the whole valley from Visalia down. There are suits pending in the Courts to settle the claims and rights of riparian owners and appropriators for irrigation. Whatever may be the decision of the Courts the water must and will be used for rendering fertile this great valley. If the laws as they stand will not permit or sustain the use of the water for such purposes, then they must and will be changed to that end. The people of the valley have confidence in this result, and are going right forward in extending old irrigation

canals and ditches, and in projecting and constructing new ones, and in a very few years hence there will be no considerable section of the valley in Fresno not under irrigation and cultivation. When this shall be the case I have reason to believe, from what I have seen of the truly wonderful productive ness of the irrigated sections, that Fresno will be the richest agricultural county in the

Whenever water has been brought upon and the land properly cultivated, the most mar-velous fertility and production has followed.

Indeed, it has been proven by an abundance of practical instances that forty acres under application of water has with careful management brought its owner a greater net income (and this is certain) than the average of wheat-growers receive in sections where irrigation is not deemed necessary. The grape for wine and for raisins comes into bearing for wine and for raisins comes into bearing here the second year from the cutting, and the third year produces a fair and paying crop, and the fourth year will produce heavily, say from four to six tons to the acre. LOGAL INTELLIGENCE.

CONTRAST IN OUR FAVOR. An Eastern dispatch says: "The police made a descent upon a party of cock-fighters time in Ohio. His family were left behind, on the cutskirts of New York Tuesday. but for what reason is not known. He was Several fled to the roof of a barr, and jumping to the ground, were seriously injured." That was shameful conduct on the part of the 1841 to 1845 he resided in Moline, Rock New York police and in hold contrast with Island county, Ill, and in the latter year, on New York police, and in bold contrast with July 13th, he was married to Abigail R. Sears. By this union there were six children the humane considerations of our Sacramento officers. Here Con. Mooney has kept a cock-pit right in the heart of Sacramento, and given cock-fights at regular intervals from the assembling of the late Legislature until a short time since, and without the least tendency to any such disgraceful raid as that made in New York. Our Chief of Police and his force knew very well that any attempt to interfere with such harmless amusement as cock-fighting, especially when a deep interest was centered upon a fight in progress—and processed on the since of those present had mostly the winter of 1856-57, and then they went to Minnesota, stopping a short time at Moline, and located on the Mississippi river at a point about twenty miles above St. Paul. Here he went into business extensively, among other things owning and running a large sawmill. In 1859 he failed in basiness in the latter State, and his family returned to Moperhaps most of those present had money up on the contest—would only tend to create 1859 in Fayette, Missouri, from which place he wrote a letter to his son Jacob, by his confusion and just such needless injuries as resulted at New York. Therefore, purely out of humane considerations for the lives first wife, then in Pennsylvania. In this letter, speaking of his second wife, he says: and legs of the legislators—and especially to preserve Con free from harm—not only did letter, speaking of his second wife, he says:
"I have got a very smart woman, but not the
best natured in the world; but she is the
best house-keeper I ever got acquainted with."
He said he would like to see the folks in Pennsylvania, including his first wife, and wondered if she would like to see him. He was
aware at that time that his first wife had our police officers refrain from making a descent upon the premises, but were careful not to be seen in the neighborhood during cockfighting hours, for fear their presence might be misunderstood and a disastrous stampede follow, in which, perhaps, half of the ma-jority side of the Legislature might have married again in 1850, but he told his son when he answered the letter to address the

writer as 'cousin," "for," he said, "there are none of my acquaintances in the West that know of my having ever had a family before I came West, and if my wife should find it out, she would no doubt raise a breeze, If the Chief of Police of New York has no better control over his officers than to let them rush pell-mell into such an innocent scene as a cock-fight, and cause the indis-criminate breaking of legs and necks, that city would do well to choose his successor, and it might create much trouble." Sholl told his son in this letter about how he without delay, from Sacramente.

Another noticeable feature of the shorthad traveled on foot over Minnesota, Wisconsin, Iowa and Illinois, and closes by advising him to come to the West. On May 18, 1862, his second wife died at Moline, Ill., and, as stated in a letter, in

comings of the officers at New York is that it was "on the outskirts" of the city where the cock-fight was held and the raid was committed. This again shows the docility and superiority of our peace officers both in and out of the city. The pit at East Park, where cock-fighting has for several months been carried on regularly on Sunday afternoon for the benefit of those who might wish to engage in those health-giving exercises, and for the moral and intellectual advancement of the young, by which they were largely attended, has been sacredly guarded by an uninterrupted absence of all officers, and the fullest constitutional liberties for running a double-decked cock-pit has been running a double-decked cock-pit has been maintained. These instances show some of the superior advantages which Sacramentans erjoy over most of the cities of the United States, if not of the cities do the United States, if not of the cities do the United States, if not of the cities do the United States, if not of the cities do the United States, if not of the cities do the United States and the had seen seen seen seen and twenty-some maintained. He shoke of the beautiful spring weather, the fine country, and expressed a very flattering opinion of the city of Sacramento. He said he had seen States, if not of the civilized world.

Admiration WORLD WORLD'S Hair Kestorer IS PERFECTION!

Public Benefactress. Mrs. S. and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of be-coming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S

WORLD'S HAIR RESTORER. "One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of with hair, after using one bottle of Mrs. S. A. Allen's World's Hair Restorer. It is not a dye.

WHAT EVERYBODY SAYS.

The Value of Opinions. Inside a window by a public way,
A little diamond lay exposed to view,
Its rays were small, but all its light was true.
Few saw it as they hurried by that day. One, looking, cried: "O, what a brilliant gem! No fairer one is there in all the land! See how it flashes out on every hand! "Tis fit to deck a royal diadem!"

"A gem, no doubt," another said, "but small,
And roughly cut. Its setting, too, is poor.
Then see where it is kept—a third class store!
Don't look at it; it cannot please at all." "Mere paste!" a third remarked, with careless glance. "The world is full of such. Their mocking

glare Meets us on every hand. Diamonds are rare. 'o think all true displays great ignorance.' 'How lovely !" said a fourth. "What may this be?

I am not wise in gem and treasure lore.

This may be true or false. I know no more
Than that it is a pleasant thing to see." The little diamond, with a steady light,
Beamed from its cushion all that day.
No bitter comment dimmed a single ray;
No flattering words brought out a gleam more bright.

O, heart of mine-I said-can you not read A needed lesson, though in senseless stone? Leap not at praise. Sink not at censure's tone

Words cannot change your worth. Why give them - [Laura G. Carr in Boston Journal. A drum fish has been caught at St. Au-

It is said that the whip is never used for horses on Governor Stanford's stock-farm at Palo Alto, Cal., and not only is this forbidden, but an angry word by any of the men is followed by instant dismissal. There are on this farm 537 head of horses nearly all yearlings and two-year-olds. Eastern Exchange. The Studio, a weekly started recently by

artists in the interests of the profession advocates a specific duty of \$100 on all aintings and sculptures. The argumen is that the dearer the imported picture or statue the less will be the proportional duty, while cheap articles will be saddled with a duty thoroughly prohibitory. As illustrating the lazy climate of Flor-

ida, a correspondent tells how on two occa-sions he has witnessed brakes whistled down and a train-load of passengers stopped in the pine woods while the conductor slowly ambled off to a neat cottage in a

ing teetotalers to be over five times more liable to break their pledges than those who abstain from tobacco. Consequently, the newest craze in the ranks of the hydropads is a "thorough-going" badge of blue, with a white stripe down the middle, the meaning of which is that the wearer has taken a pledge not to use tobacco.

The substitution of steam for sails in the grain export trade is going on with great rapidity. No longer ago than 1880, sailing yessels took out from the continuous strictly confidential. vessels took out from the port of New York over 63,000,000 bushels, and steam vessels only 50,000,000; but the following year the exports by sail fell off to 19,000,000 and those by steam increased to 54,000,000. Last year the shipments by sail even dropped to about 6,000,000, while those by steam reached about 40,000,000.
